

Application for Broadband DSL Service

Lackawaxen Telecommunications Services, Inc.
570-685-7111 104 Hotel Road P.O. Box 8 Rowland, PA 18457 www.ltis.net
We have been serving the communications needs of Pike and Wayne Counties for over 100 years.

(Please print and complete all sections of the form. Call for assistance.)

Service Broadband DSL Internet Access	Date of Application
---	---------------------

Last Name	First Name	Middle Name
Address	City	State Zip Code
Telephone Numbers (where you can be reached)		Soc Sec No
Telephone Number (where DSL service will be placed)		LTS Account Number
Are you an existing LTS Dial-Up Internet customer? <input type="checkbox"/> Yes <input type="checkbox"/> No		

User Name and Password

You must choose a username and a password. Usernames must be a minimum of 3 and a maximum of 15 characters in length. The username can be made up of letters and numbers but it must start with a letter. It must also be unique, which is why you need to provide a first, second and a third choice. The username will become the first portion of your e-mail address 'username@ltis.net' If you are an existing LTS dial-up customer, enter your current username.		
Username 1 st choice	2 nd choice	3 rd choice
Password (passwords must be between 4 and 13 characters in length) If you are an existing LTS dial-up customer, enter your current password.		

Service Speed

You must select a service speed. Monthly rates vary according to your speed selection, so you may want to contact Customer Service for the latest information on each service speed. Service bundle packages contain a particular broadband service speed. Speed upgrades to the service bundles at additional cost are available. The 3.072 Mbs service is not available in all areas.		
Select one speed option		
<input type="checkbox"/> 512 Kbs/256 Kbs	<input type="checkbox"/> 1.544 Mbs/512 Kbs	<input type="checkbox"/> 3.072 Mbs/768 Kbs

Computer Information

In order to properly set up your service, we require some information regarding your computer. The Ethernet card, also known as a NIC card or a 10/100 interface is required for the service to operate. Your computer must have one in order to work with the service. Most newer computers are equipped with such an interface. It can be identified on the back of your computer. It looks like a modular telephone jack but it is larger in size.

Please select your operating system and indicate if your computer contains a Network Interface Card or if you have a wireless network.

<input type="checkbox"/> Windows 98SE	<input type="checkbox"/> Windows NT	<input type="checkbox"/> Windows 2000	<input type="checkbox"/> Linux
<input type="checkbox"/> Windows XP	<input type="checkbox"/> Windows Vista	<input type="checkbox"/> Mac	<input type="checkbox"/> Other:
Does your computer have a 10/100 Ethernet card?		<input type="checkbox"/> Yes	<input type="checkbox"/> No
Do you have a wireless router or a Wi-Fi network in your home?		<input type="checkbox"/> Yes	<input type="checkbox"/> No

Installation of DSL broadband service does not include a wireless router or configuration of a Wi-Fi network at the customer's location. Wireless equipment and/or Wi-Fi network setup are available as a separate service at additional cost.

Computer Requirements

In order to properly work with the Lackawaxen broadband service, your computer must meet or exceed the following requirements.

- | | |
|--|--|
| <ul style="list-style-type: none"> • Pentium II or higher processor • Windows 98 Second Edition or newer operating system • Network Interface Card (NIC) • Anti-virus protection software program that is up to date | <ul style="list-style-type: none"> • A firewall is highly recommended • MAC users must configure their systems to TCP/IP |
|--|--|

Applicant's Signature

I understand that the charges for the Predator ADSL service will be added to my telephone bill and I agree to keep my telephone bill current. I understand that I could lose the privilege of having ADSL service by not keeping this telephone bill current.
